Database

- SQL, Mysql

Other

- Rest API, Basic React js, basic Mongoddb

Experience

Arcane Programming Infotech Pvt. Ltd.

Jul 2022 – Dec 2022

Intern (Web Development)

- Created a project College Management System

Winaxis Consultants PVT LTD

Jan 2023 – June 2023

Associate Developer

- Created a project E-office automation systems (E-Office Application) and Attendance Management System

Winaxis Consultants PVT LTD

Jul 2023 – Current

Junior Developer

- Created a project ERP systems (Growfast Groups ERP) and Feedback management platforms (Feedback Management System)
- Led a team of 4 software developers to deliver projects on time, improving delivery efficiency by 30%.

Education

AKTU

2023 – Current

B.Tech in Computer Science and Engineering

Dr. M.C.Saxena Group of College

BTEUP

2019 – 2022

Diploma in Information Technology

Government Girls Polytechnic Lucknow

Projects

College Management System

- A college management system is a software solution that streamlines college operations, including student information, enrollment, grades, financial aid, accounting, human resources, and alumni management. It automates processes, improves efficiency, and provides data insights, enabling colleges to focus on student success and academic excellence.

E-office Management System

[Click-here](#)

- An E-office Management System is a digital platform that automates and streamlines office operations, including document management, workflow automation, communication, and task management. It increases productivity, reduces paperwork, and enhances collaboration, enabling a paperless and efficient work environment.

Presence (Attendance Management System)[Click-here](#)

- Presence (Attendance) Application: Built a real-time attendance tracking system for employees, integrating with biometric devices and generating detailed reports.

Growfast Groups ERP[Click-here](#)

- Developed a comprehensive ERP system for managing business operations, including modules for finance, inventory, and customer management.

Feedback Management System[Click-here](#)

- Feedback Management System: Built a web-based platform for collecting, analyzing, and reporting feedback from customers, employees, and stakeholders.

HRMS Application[Click-here](#)

- HRMS Application: Designed and developed a human resource management system for managing employee data, leave requests, and performance evaluations
