Summary — Professional .NET Full Stack Developer with 3+ years of experience designing, developing, and maintaining secure, scalable, and high-performance web applications. Proficient in ASP.NET Core, ASP.NET MVC, C#, .NET Core, React, SQL Server, Entity Framework, LINQ, Web API, JavaScript, jQuery, Bootstrap, HTML5, CSS3, Git, and RESTful API development. Experienced in delivering enterprise applications, including ERP, HRMS, CRM, E-Office, Attendance Management, Flight Reservation, School Management, and Workflow Automation systems. Strong expertise in object-oriented programming (OOP), database design, query optimization, authentication and authorization, responsive UI development, third-party API integration, and software debugging. Adept at collaborating with cross-functional teams, following Agile development practices, and delivering high-quality software solutions within project deadlines. Passionate about solving complex business challenges through clean architecture, reusable code, performance optimization, and continuous learning of modern technologies, frameworks, and industry best practices.

Skills

Frontend

- HTML 5, CSS 3, Bootstrap 4, JavaScript, jQuery

Backend

- ASP.NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework, ASP.NET Web Forms, C#

Database

- SQL, MySQL, SQL Server, Stored Procedures and Views, Query Optimisation

Other

- RESTful APIs, JSON / XML, Third-Party API Integration, Authentication and Authorization

Tools and Technologies

- Visual Studio, Git, GitHub, IIS, Postman and Swagger

Professional Skills

- Problem Solving, Team Collaboration, Communication, Analytical Thinking, Time Management, Adaptability, Leadership, Debugging, Agile Development

Experience

.NET Full Stack Developer

July 2025 - Present

Edoro Technologies LLP

- Developed 10+ enterprise web modules using ASP.NET Core and React, improving business process automation.
- Developed 30+ RESTful APIs for ERP, HRMS, and CRM applications, enabling seamless system integration.
- Optimized 50+ SQL queries and stored procedures, reducing data retrieval time by up to 35%.
- Collaborated with 5+ cross-functional team members to deliver projects within deadlines.

.NET Developer

July 2023 - May 2025

Winaxis Consultants Pvt. Ltd.

- Developed 15+ ERP modules including HR, Inventory, Attendance, Sales, and Reporting.
- Implemented role-based authentication for 1,000+ employee accounts.
- Resolved 100+ production issues, improving application stability.
- Designed responsive interfaces used across multiple enterprise applications.

Associate Web Developer

Jan 2023 - Jun 2023

Winaxis Consultants Pvt. Ltd.

- Created responsive web pages.
- Worked on database integration.
- Assisted senior developers in feature implementation.

Education

Bachelor of Technology (B.Tech) <i>Computer Science & Engineering</i> <i>Dr. A.P.J. Abdul Kalam Technical University</i>	2023 – 2026
Diploma <i>Information Technology</i> <i>Board of Technical Education, Uttar Pradesh</i>	2019 – 2022
Intermediate (12th) <i>Science</i> <i>U.P. Board</i>	2017 – 2019
High School (10th) <i>Science</i> <i>U.P. Board</i>	2015 – 2017

Projects

ERP Management System – Developed a comprehensive ERP system with HR, Employee, Sales, Inventory, Attendance, Leave, and Reporting modules using ASP.NET Core, C#, SQL Server, Entity Framework, LINQ, and Web API.
HRMS Application – Built an HRMS for employee management, payroll, attendance, leave requests, role-based access, and HR workflow automation using .NET Core, React, Web API, and SQL Server.
E-Office Management System – Developed an office automation system for document management, approval workflows, permissions, and office administration using ASP.NET MVC, jQuery, and SQL Server.
Presence (Attendance Management System) – Developed a real-time employee attendance system with biometric integration, leave tracking, and reporting using ASP.NET MVC, SQL Server, and jQuery.
Growfast Groups ERP – Developed an ERP solution for finance, customer management, inventory, sales, and business operations using ASP.NET Core and SQL Server.
Flight Reservation System – Developed an online flight booking system with passenger management, booking workflow, ticket generation, and admin panel using ASP.NET MVC, REST API, SQL Server, and Bootstrap.
School Management System – Developed a school management system with admissions, student records, attendance, fee management, examinations, and reporting using React, .NET Core, and SQL Server.
Feedback Management System – Built a feedback management platform for collecting, analyzing, and reporting customer and employee feedback using ASP.NET MVC and SQL Server.
Portfolio Website – Designed and developed a responsive portfolio website with animations, project showcase, and contact form using React, Framer Motion, and CSS3.
